Cadorna Driving Hard, Compels Austrians to Abandon Supply Bases

Italians Have Now Captured 23,000 Men And 500 Officers And Great Quantities Of Stores Including Guns Of All Calibres—On Both Sides Of Meuse French Continue Their Gains—British, East Of Marguecourt And North Of St. Quentin, Have Stormed Two Strong Positions.

(By Morning Bulletin Leased Wire)

LONDON, Aug. 26.—With the dominating height of Monte Santo securely in their possession, the Italians are continuing their drive of the Austrians eastward over the Bainsizza Plateau, despite the resistance the enemy is offering, with many guns and light artillery. Right along the Carso front, in proximity to the sea, where the battle again has assumed terrific proportions after Saturday's slight lull, the Italian airmen are still lending wonderful aid to General Cadorna's forces, dropping bombs or using their machine guns with telling effect on troop concentrations behind the line. Daily the number of prisoners taken by the Italians—both officers and men—is mounting, the latest report showing that 600 officers and 23,000 men have definitely been rendered non-combatants for the remainder of the war. In addition the capture of stores by the Italians has been enormous, including guns of all calibres and arms, ammunition, horses, and motor tractors. From the supply depots abandoned by the enemy in his flight, the Italians are now enabled to replenish their troops fighting in the different country.

French Gains

On both sides of the River Meuse, in the Verdun sector, the French troops continue their gains against the forces of the German army. On the right bank of the Meuse, having captured positions over a front of two and a half miles to a depth of two-thirds of a mile, taking the Fosse and Beaumont woods and reaching the environs of the village of Beaumont, and on the left bank having driven their advanced posts to the outskirts of Bethincourt and along the banks of the Fosse de la Meuse.

The British, east of Marguecourt and north of St. Quentin, have made an advance of a half mile on a front of a mile and captured German strong points at Cologne and Malakoff farms, taking 136 prisoners in the operation. The Germans on Sunday morning momentarily occupied their former positions in the northwest corner of the Verdun sector, but were quickly driven out. Field Marshal Haig reports that the Germans have recaptured a post southwest of Lombardey, taken from them Friday night, the Tenth Army advancing under cover of a heavy bombardment. Elsewhere on the front in France and Belgium, aside from artillery duels, and British French raids, there has been little activity.

Position at Riga

Evidently the German advance toward Riga, Russia's important port and naval base, on the Baltic, has ceased, for neither the German nor Russian official communications mention operations in this region. To the south, however, the Russian and Russo-Romanian armies, respectively, around Vladimir-Volynsk, and in the Rumanian theatre, are keeping up their strong resistance against the Germans and the Austrians. Near Vladimir-Volynsk German attacks have been repulsed, while on the Rumanian front attempts by the Teutonic allies to advance again have been frustrated.

Storm Fortified Farms

LONDON, Aug. 26.—British troops today made an advance of half a mile along a front east of Marguecourt, capturing St. Quentin, storming and capturing a post taken by us on the night of August 24-25, west of Geleide Creek, southwest of Lambertzeyde.

The statement reads: "By this morning we attacked and captured the enemy's positions east of Marguecourt on a front of over a mile. Our troops penetrated to a depth of a half mile, carrying by assault the enemy's strong position at Cologne and Malakoff farms, according to the official report from British headquarters in France tonight.

"During the night the enemy, under cover of a heavy bombardment, recaptured a post taken by us on the night of August 24-25, west of Geleide Creek, southwest of Lambertzeyde.

"The hostile artillery has been more active than usual in the Neuport sector.

"Owing to stormy weather there was little aerial activity yesterday until evening, when successful artillery work was carried out by us with air-planes observation. Some fighting took place. Three German machines were brought down and four others were driven down out of control. Two of our airplanes are missing."

LONDON, Aug. 26.—The British last night attacked and drove the Germans out of a portion of the trenches northeast of Guillemont farm, which the enemy had captured in the morning, re-establishing the British former positions, according to the official communication issued by the war office this morning. A German counter attack was later repulsed. The statement tells further of a repulse by Portuguese troops of a German raiding party southeast of Laventie. The text of the communication follows:

ROYAL ASSENT EXPECTED TO BE GIVEN DRAFT ACT ON TUESDAY

(By Morning Bulletin Leased Wire)

OTTAWA, Aug. 26.—The following statement was given out tonight:

"It is expected that the governor-general will give his assent on Tuesday to the Military Service Act. It has been alleged that there has been unnecessary delay in bringing the measure into effect, but the officers of the justice department have been steadily at work making the many necessary preparations for putting the measure into operation. Under section 2 of the act the minister of justice is required to establish local tribunals at such places as he deems necessary. It is estimated that a local board could not, within the time which may reasonably be allowed to do it, deal with more applications for exemption than would be anticipated to come from 500 men from the class first called. Allowing one board for each 500 unmarried men between the ages of 20 and 30, it is estimated that there should be a board for every 7,500 of the population, or about 1,000 boards all over the country. The work of selecting the places at which these numerous boards are to be established is difficult and necessarily requires a considerable time. However, with the aid of the census branch, the officers of the justice department have this work sufficiently advanced to allow the minister of justice to issue his proclamation establishing the tribunals almost immediately after the act receives the royal assent. These activities induced Mr. Devlin, M.P., to question in the house the propriety of operating under the act before it received his excellency's assent.

"Procedure before the tribunals and other important matters are under the act to be provided for by regulations of the governor-in-council. This, too, is well under way. The draft regulations, forms, etc., are ready for the printer. They will then require further revision and consideration, as well as some additions. "To assist the minister, a council, known as the military service council, is to be appointed to advise and assist in the administration and enforcement of the act. The council will consist of five gentlemen, whose names will probably be made known tomorrow."

BARN BURNED BY FIRE—SASKATOON

Property Of The Western Distributors' Company—Loss Expected To Be Heavy

SASKATOON, Sask., Aug. 26.—Fire, starting from a cause yet unknown, this evening gutted the barns of the Western Distributors' Company, Ltd., here. Up to late hour tonight officials of the company were unable to give a definite estimate of the damage sustained, but the financial loss will run very high. Nine horses are known to be dead, and the number may be increased as many of the fifty-four animals which were in the barn have escaped into the surrounding districts and had not been rounded up. Thirty tons of hay, in the loft, together with a large quantity of oats and much harness are lost. There was a night man on duty at the premises, but he was unable to account for the origin of the fire. He noticed smoke issuing from the loft and at once notified the fire department by phone.

FIVE IN AUTO ACCIDENT

CALGARY, Alta., Aug. 26.—Five persons are in the hospital as a result of a Sunday morning accident, the daughter of Major J. C. Bruce receiving probable fatal injuries when two automobiles collided on Mount Royal Hill. Four other occupants of the car were badly hurt. The 5-year-old baby of Mr. Scott was hurled through a windshield in another accident.

CONCILIATION BOARD SETTLES DISPUTE IN TORONTO—COMPANY'S REPRESENTATIVE DISSENTS

TORONTO, Aug. 26.—By a vote of 64 to 289 the street car men employed by the Toronto Railway Company at a Saturday midnight mass meeting accepted the report, given out at the meeting on Saturday, of the conciliation board which investigated the dispute between the men and the company. The wage schedule was found especially favorable to the men, and occasioned little discussion. The closed shop question was debated for a time and strongly favored. The report is yet to be accepted by the company. This is expected in a few days.

PELTAIN CONGRATULATES ARMY

PARIS, Aug. 24.—General Peltain, commander-in-chief of the French army, has addressed congratulatory messages to the officers, non-commissioned officers and soldiers of the second army, who are victoriously fighting the second battle of Verdun. To his leader, General Guillaumat, and to his staff is given a citation in the order of the day.

ROUNDING UP HUNS IN EAST AFRICA

Operations Of British And Belgians Proceeding Successfully.

LONDON, Aug. 25.—The British official statement issued today on the East African war theatre reports further advances of the British and the Belgian forces against the Germans. The text follows:

"In East Africa the enemy has been driven back eight miles in the Tindi area. In the Kilima area the enemy has partly withdrawn toward the Mbaruni Valley. Belgian columns are moving south from Kilosa.

"At Mpepos, sixty-five miles southwest of Mahonguey, our columns have invested a considerable German force. In the southern area we are approaching Tunduru, the enemy's supply centre."

PREMIER FOR OTTAWA

WINNIPEG, Aug. 26.—The conference of Western Liberals, which occupied Friday and Saturday, broke up without any definite announcement, it being stated that any statement to be made will be issued from Ottawa. The departure of Hon. Arthur L. Sifton, premier of Alberta, for the east this morning, following the return of the other western members of the conference to their homes on Saturday evening, was taken to indicate that the decision had been arrived at and that Premier Sifton was the bearer of the reply to Ottawa.

SHOULD MEAN MUCH LOWER PRICES HERE

No More Bacon And Hogs To Be Bought By British Government.

TORONTO, Aug. 26.—The British food controller has notified the Canadian packers that no more Canadian bacon or hogs will be bought by the government. The decision is a blow to the Dominion from a broad commercial point of view will affect the country's trade to only a small percentage, effect of the packing industry will be serious.

The William Davies company last year shipped 97,791,000 pounds of bacon to England and the exports of other Canadian companies are understood to have brought the total up to nearly 200,000,000 pounds, without reference to exports of other pork products.

"It should mean much lower prices in Canada," declared a wholesale dealer, who is not in sympathy with the high prices now prevailing.

TWO MOUNTAIN SIDES ON FIRE AT KOOTENAY

Worst Forest Blaze In History Of The District Raging Below Nelson.

NELSON, B.C., Aug. 26.—The worst forest fire in the history of this district is raging two miles below Nelson. Tonight the whole of the two mountain sides are blazing with flames, fire being fed from underneath, where forest fires usually burn, into the tops of the trees. The fire covers several square miles and its lower end appears to be about half a mile above Kootenay river, on the opposite side of the river from Nelson. There is no danger to the city. That would only arise if the fire reached the river banks, just as it did on Saturday, when it burned and ran for two miles through the woods and ranches on this side. Such an occurrence is possible, but it is not regarded seriously.

STREET CAR MEN ACCEPT AWARD BY LARGE VOTE

CALGARY, Alta., Aug. 26.—Fred Johnson, a farmer, committed suicide yesterday after building his own scaffold. The suicide planned his death deliberately and removed all of his clothing except a pair of overalls before leaping to his death.

SAVED BY FOG!

AN ATLANTIC PORT, Aug. 26.—A thick fog of a fog a British steamer, in today from a foreign port, escaped a German submarine, which had pursued her for several hours while trying to get close enough to discharge a torpedo. Later, as the wind shifted and cleared the air, there was no submarine in sight. Officers said they were surprised to find the submarine so close in shore.

"A GREAT BLUFF"

FARNHAM, Que., Aug. 26.—At a Liberal meeting in the town hall, here this afternoon, E. B. Devlin, M.P., for Wright, declared that the Borden government is putting up "a great bluff" in connection with the talk of putting conscription into operation. He said it is not the government's intention to do more than make a big fuss for purely election purposes.

ROLLING STOCK FOR GOVT. AND OTHER LINES

Vote Of Twenty-five Million Dollars Passed By House.

U. S. COMPANIES WANT CARS BACK

Issuing Of Passes To Government Officials Raised.

(By Morning Bulletin Leased Wire)

OTTAWA, Aug. 26.—In committee of supply in the commons on Saturday there was a long discussion on Hon. Frank Cochrane's vote of twenty-million for the purchase of railway rolling stock, including six thousand cars, which was passed by the House. Oliver wanted to know if the entire six thousand would be required for the government railway system or if some of them were for the Canadian Northern Railway.

FOR SEVERAL LINES

Mr. Cochrane replied that four thousand cars would be required for the government system. As for the other two thousand, they would be required not only by the Canadian Northern Railway, but by the Grand Trunk and other railways. He explained that the coal shippers of the United States are now anxious to have their cars returned immediately with the result that they cannot be used in Canada for carrying sand and gravel. This means a further shortage in the supply of cars ordinarily available and increased demand upon the government for more rolling stock.

Mr. Cochrane said he was glad to see the government take action in regard to rolling stock, even at this late hour.

Light Rails at Front

Mr. Oliver read a letter which he said he had received from the front stating that all kinds of light rails are being used in connection with military operations and stating that there was plenty of material on hand. He remarked that in view of the evidence there did not appear to be much need for taking up Grand Trunk Pacific rails and transferring Canadian Northern Railway rails, as had been done west of Edmonton.

"All I know," said Mr. Cochrane, "is that we got our instructions from the British government. They know what they want and I am prepared to give them what they want."

George Kite of Richmond, N. S., introduced a discussion as to the right of parliamentary under secretaries to hold rank in private cars.

The minister said his policy was to give under secretaries cars if they wanted them, provided they were available.

NO NEWS FROM OTTAWA

OTTAWA, Aug. 26.—Sir Robert Borden has not been well over the week-end, and has been confined to his bed with a slight indisposition. It had been anticipated that the results of the negotiations in connection with the proposed union which have been going on in the west, since the delegates who were here returned, will be communicated to the public today, but nothing of an official nature has been given out.

Kerensky Opens State Council; Declaration of Vigorous Program

"All Attempts With Armed Force Against The People's Power Will Be Crushed With Blood And Iron," He Warns And His Proclamation Is Wildly Cheered—Historic Assembly Meets In Moscow With Solemnity And Pomp—People Present From All Parts Of The Empire.

(By Morning Bulletin Leased Wire)

MOSCOW, Aug. 26.—The state council, which promises results in the national life of Russia, opened at 3 o'clock this afternoon in the Grand Opera house with that solemnity and old Russian pomp essentially characteristic of Moscow. The theatre district was crowded with sightseers. Interposed among the members of the council were to be seen characteristic Russian types, including Tatars in peaked caps, white robed Muslims from the Volga, Georgians robed in cloth of gold, and dignitaries of the Greek Orthodox church, who had arrived for the ecumenical church congress which opened Tuesday.

CITY QUIET

Despite the one-day strike proclaimed by the Bolsheviks, in protest against the council as a counter-revolutionary expression, the city is quiet. A few incipient attempts by the Bolshevik street corner orators to organize demonstrations were summarily suppressed by the crowd, and no serious incident occurred.

Precautions were taken against disorders of all descriptions. The council threatened to show a rigorous front in this respect unknown even in the ante-revolutionary days.

The building in which the council is meeting is surrounded by a chain of soldiers, with officers every few yards, the soldiers being picked men from regiments of the signal corps or cadets training for officers. The chambers under the building are occupied by soldiers with fixed bayonets.

Members and invited guests, before being admitted, have their tickets examined by nine different military posts.

Alaieff and Brusiloff

Premier Kerensky and the other ministers of the provisional government occupied the stage and were seated by General Alaieff and Brusiloff, former commanders in chief of the Russian army, and other high military officers, in the former emperor's box. There was much comment because of the absence of General Korniloff, the present commander in chief, but it is expected that he will attend the council tomorrow.

The proceedings began with a speech by Premier Kerensky, lasting an hour and a half, pronounced in a nervous, impressive voice, which aroused tremendous applause, mainly from that part of the theatre occupied by Democratic organizations and members of the cabinet, but the Duma members and the Moscow industrial deputies also at times participated. Kerensky spoke resolutely emphasizing the role he had played in recent events and his determination to guide events in the future.

Wild Applause

Premier Kerensky and the other applause when, early in his speech, speaking of the dangers from the extreme left, he declared:

"All attempts with armed force against the people's power will be crushed with blood and iron."

Mr. Fugaley said he had heard him when, hinting at a counter-revolutionary military conspiracy, he exclaimed:

"Let them be warned who think the time has come when, relying on the bayonet, they can overthrow our revolution." The audience rose and cheered this expression for five minutes.

Kerensky rebuked the Finlanders and others seceding nationalities, his words evoking enthusiasm, and there was a menacing note in his voice when he declared that their pretensions threatened the success of the revolution.

The premier's speech indicated that the government expects further attacks tomorrow by the military Duma and the Moscow deputies, which he denounced in advance.

Consolidation

The premier declared that the destructive period of the revolution had passed and that the time had come to consolidate the conquests of the revolution.

"For this reason," he continued, "we ask you, citizens, whether you feel within your hearts the indispensable sacrifice for the attainment of this object, whether you represent here in Moscow the national strength which is necessary to insure the prosperity of the country. Or will you give the world and us another picture of decadence?"

"A little time ago we indignantly replied to a proposal to conclude a separate peace; a few days ago we witnessed another attempt, equally base, to direct against our allies. The latter rejected it with equal indignation and in the name of the great Russian people I say to our allies that it was the only reply we expected of them."

Cheer for Allies

At this point the delegates arose and cheered loudly the diplomatic representatives of the allied powers.

The premier then paid a tribute to the Roumanians, saying that if they were forced temporarily to abandon their country they would find hospitality in Russia.

Notwithstanding the none too friendly attitude toward the mother country of certain nationalities of the Russian state, M. Kerensky continued, the Russian democracy would give them all it promised through the provisional government and all that the constituent assembly might yet decide to grant, but when the limit of tolerance was passed or where there was a desire to take advantage of the nation's difficulties in order to violate the free will of Russia they would cry "Hands off!"

Warning to Finland

The premier said the government would prevent by force re-opening of the dissolved Diet in Finland, and that he hoped the country would approve this decision. His statement was cheered.

"The government will endeavor," the premier went on, "to protect the army against the subversive influence which deprived soldiers of all sense of military duty and will struggle energetically against the Maximalists and against all attempts by them to corrupt discipline."

The premier said his colleagues would describe the widespread disorganization in the country, adding:

"In order to remedy this we must all make sacrifices, abandoning our personal and party interests."

Organizing the Provinces

M. Avskentiev, minister of the interior, and M. Prokopovitch, minister of trade and industry, followed M. Kerensky. The minister of the interior described the task of organizing the provinces; the minister of trade and industry told of the cost to Russia of the war.

The first year of the war, said M. Prokopovitch, cost Russia 5,300,000,000 rubles; the second year 11,300,000,000 rubles; the third year already 15,000,000,000 rubles, while the total revenue for 1915 was 15,000,000,000 rubles.

Regarding the question of food, he said the country's position was extremely difficult, there was a scarcity in several provinces and a minimum in Petrograd and Moscow. He was endeavoring to nurse such industries as remained, and he considered it necessary to control the profits of manufacture in order to prevent them becoming rich at the expense of the populace.

NEWS DIRECTOR PARIS CHARGED WITH TREASON

Accused Of Having Supplied Enemy With Information—Editor Committed Suicide.

PARIS, Aug. 26.—M. Duval, director of the Bonnet Rouge, whose editor, Miguel Aimeroy, committed suicide August 15th after being arrested on the charge of addition, was yesterday turned over to the military authorities by an examining magistrate.

M. Duval had been charged with treason, according to the police, evidence collected in the investigation, proved that the Bonnet Rouge director, instead of trading with countries hostile to France, supplied the enemy with information. This charge involves capital punishment.

Italy Thrilled by Success of Cadorna's Men on Isonzo Front

ROME, Aug. 25.—The Italian troops on the Isonzo front are marching to complete victory.

At Udine, Salvatore Barzilai, civil governor of the Austrian territory secured by the Italian army, declared the complete victory of the Italians, exclaimed:

"At last our soldiers have achieved this magnificent feat. They have freed our soil from the ancient enemy."

The final success of the Italians in winning their greatest battle in this war is thrilling the country as never before. Both the army and the civilians now see the result of two years' suffering and economic hardship. The victory came unexpectedly, notwithstanding the encouraging bulletins of the last fortnight.

It is General Cadorna's rule never to announce an event until certain that his troops are able to hold positions. General Cadorna's men, who at the beginning of the offensive effected a new crossing of the river north of Gorizia, at a point where the Austrians believed such a feat was impossible, have won a spectacular victory by scaling Monte Santo, 2,345 feet high, and placing their flag there. This mountain top, seven miles of Gorizia, dominates the plain to the east of the city. The Austrian line of defense was broken at several points and the Italians are pursuing the retreating Austrians.

Further south on the Carso fighting continues violently and incessantly. Austrian efforts to win back lost positions were defeated.

\$35,000,000 FOR SHIPYARDS

WASHINGTON, Aug. 26.—Contracts for construction of three government-owned shipyards and for building in them a great fleet of fabricated steel vessels will be let early this week by the emergency fleet corporation. The yards are to cost \$35,000,000, and work on them will start immediately.

Peace River Red Cross Branch Made Money During Fair Week

Ladies Profited By Attendance—Ran a Refreshment Tent Which Paid Well—Fruit Cake Raffle—250 Tickets Sold.

(Special to the Bulletin.)
Peace River, Aug. 24.—Fair week was a very remunerative period for the local branch of the Red Cross society, as the women took the opportunity of the fair attraction to work out a number of devices to make money for this worthy cause. Although the net proceeds are not yet calculated, approximately it is estimated that about one hundred and forty-five dollars will be cleared. The refreshment tent was run in co-operation with Mr. S. Quinn with the agreement that the Red Cross would receive half of the proceeds, after expenses were paid. This is expected to be in the neighborhood of forty dollars. Mrs. A. Condie, Mrs. L. Doherty and Mrs. E. Gaudet were the respective convener for the three days. Many other members helped and worked indefatigably at the preparing and serving of the meals which were excellent.
From the sale of home-made candy the sum of \$16.55 was realized. Mrs. Field was convener of this committee while the vendors were Mrs. R. A. MacLeod and Miss May Briscoe.

HUM OF BINDERS HEARD UP NORTH

Hot Weather Has Brought Grain Along and Crops Promise Well.

NO WORRY OVER FROST
Two Crops of Green Feed Out From One Field at Catholic Mission.

(Special to the Bulletin.)
Peace River, Aug. 24.—The merry hum of the binder is now being heard in the Peace River district. This week harvesting will first be general throughout the district. The hot weather of the past week, following upon the showery weather of the week previous, has ripened the grain very rapidly and the heads are so well filled out that farmers are prophesying yields of 30 to 40 bushels per acre for wheat. The oat crop, which is not quite so heavy as hoped for, will run only about 40 bushels to the acre. This last week barley cutting was general throughout the district and wheat cutting had begun on some of the earlier fields. At the Catholic Mission, Shaftsbury, the wheat and oats are all cut and the straw is being put in the windrows. The wheat is being cut on the whole.

All worry about frost is a thing of the past. Even if there should be a frost now—and there certainly are no definite prospects of one—the grain is out of danger. The Peace River district is assured of a crop and a big crop, too.
As a matter of fact there has been only one crop failure in the Peace River district in the past ten years. That was last year, when a heavy frost coupled with a late season gave the district quite a bad season. The Peace River district is assured of a crop and a big crop, too.
Just as an evidence of what the district can produce, the first week in July, at the Catholic Mission, Shaftsbury, oats were cut for green feed. As soon as cutting was done the field was seeded again with the hope that a second crop of green feed might possibly be cut. Now this second crop is heading out and given three weeks more of the present weather and the field will be cut—not for green feed, but for threshing out.

FINDS FARMERS ARE OPTIMISTIC

Manager of Bank of Commerce Gives Views on the Situation.

ARE BUYING MACHINERY

Barley All Out and Wheat is Ready—Cutting General Next Week.

(Special to the Bulletin.)
Peace River, Aug. 24.—"Farmers of the Peace River district have never been in a more optimistic mood," says Mr. Allan McKenzie, manager of the Canadian Bank of Commerce expressed himself in describing the crop prospects of the district at the present time.
"This is reflected," continued Mr. McKenzie, "in the large demand for threshing machinery. There have been six threshing outfits ordered within the past few weeks and several more are thinking of buying. Also there has been a great demand for binders and other farm machinery.
"Barley cutting is about finished and the farmers are now in the wheat fields. Harvesting will be general all over the district next week.
"The country is also rapidly becoming more of a mixed farming community. Within the past few months there have been at least 500 cattle imported and this is one of the best indications of the future prosperity of the district."

Mr. Gaudet was accompanied by his son, Fred Gaudet, who is also a retired factor of the Hudson's Bay in the field.

Miss Etta Alagar, who attended school in Edmonton, has received word that she was successful in passing her grade IX examinations.

Mr. W. H. Wilson gave a military bridge party on Tuesday night in aid of the Red Cross. The prizes were won by Mrs. W. B. Donald, Inspector Field and Mrs. L. Doherty. Four tables contested.

Mrs. W. B. L. Donald, wife of Capt. Donald, a former resident of Peace River, is back in the village again and is a guest at the Royal Hotel. She was accompanied by Miss Muriel Marshall of Montreal, who left on Wednesday for Calgary. Mrs. Donald will remain some time, until her house, which was burnt recently, is rebuilt.

C. S. Leggo, manager of the Diamond Hotel at Port Vermilion, returned home last week from the Pacific coast.

Mrs. L. Russell, who has been holidaying at Griffen Creek, has returned.

The first meeting of the Peace River Women's Institute will be held next Monday at the council chamber of the village. An interesting program has been planned.

Inspector and Mrs. Field and Mr. Allan McKenzie spent the week-end at Shaftsbury.

Mr. and Mrs. Lydel and family went up and down the river on the D. A. Thompson last week.

G. G. Dunning, mother of Corporal Gordon Dunning, who was reported missing a short time ago, that she has received word from the Major of his battalion that he had every reason to believe he was a prisoner in Germany.

The Peace River public school reopened on Monday.

Mr. J. A. Buchanan of Edmonton, who is spending the summer at Peace River, and who with Miss Whinn Johnson has taken Dr. and Mrs. Grimshaw's house, gave a very enjoyable evening tea for Mrs. Hols and Mrs. Telford last Friday. The house was prettily decorated throughout with sweet peas and the tea table was presided over by Mrs. King Anderson and Mrs. W. H. Wilson. About thirty guests were present.

Mr. C. Gaudet, who came out from Fort Good Hope about ten days ago, left on Wednesday en route for his boyhood home in Montreal, where he expects to spend the remainder of his days as he is eighty-nine years of age.

HIGH PRAIRIE.
On the 15th inst., the U. E. A. local enjoyed a rare treat in the form of an address by Mr. S. C. Dregillus, of the central office, Calgary. Mr. Dregillus was followed by Mr. Hanson, of Los Angeles, Cal., who delighted the audience with Indian legends, of which he has a fine collection. This summer in the Peace River country.

Miss Alice Cockburn, of St. Joseph, Montreal, who has spent several weeks with Mr. and Mrs. A. E. Key, left for Winnipeg on Sunday. She was accompanied as far as Edmonton by Miss Dorcas Key.

A very favorable weather there are large quantities of hay in stack and now the hum of the binder is a familiar sound. Considerable winter wheat, rye and barley is already in stock.

KISSED THE LADIES AS HE GAVE MEDALS

Minister of War Paineuve Decorated Three Women for War Service

Paris, Aug. 25.—Three women yesterday received the Legion of Honor for their work in connection with the war. They are Lady Mitchell, of the Astoria Hotel, Paris; Mrs. Borden Turner of Chicago, who has maintained a hospital in the Belgian territory since the beginning of the war; and Miss Irving of the Scottish Women's hospital at Roumont. Minister of War Paineuve planned the ceremony, saluting them on both cheeks in accordance with the custom.

FATHER VAUGHAN ON POPE'S OFFER

"We Cannot Sheathe the Sword Until We Have Broken Up Militarism."

London, Aug. 25, via Reuters' Ottawa (Agency).—Addressing wounded soldiers here today, Rev. Father Vaughan, the well known Jesuit priest, brother of the late Cardinal Vaughan, Archbishop of Westminster, said he had heard of the pope's offer of a general armistice. He thought the pope was so sanguine and had shown such solicitude for international peace that he longed to create it, but that he did not fully realize that the allies felt they could not come to terms of peace until they had broken up the militarism which was the cause of the war. He said that he would not make a peace which would simply mean armed neutrality until the foe was again ready to plunge the knife into us.

When we looked at Serbia, at Armenia, Poland, Belgium and France, when we considered what would be the result of our island home if we had the opportunity of dealing with the hated English, we could not come to terms.

GERARD EXPOSES WRATH OF KAISER

Wilhelm Said He Would Stand 'No More Nonsense from America.'

Minneapolis, Aug. 25.—The American government was warned by the German emperor early in the European war that America would be held to an accountability "for her non-compliance with the peace of Europe." The Kaiser said at the time that he would not see the ambassador of a country selling supplies to Germany's enemies. Mr. Gerard, who forced an audience, said: "I'll stand no nonsense from America after the war. America had better not expect to be treated as a neutral country when the war is over. The Kaiser said that he would not see the ambassador of a country selling supplies to Germany's enemies. Mr. Gerard, who forced an audience, said: "I'll stand no nonsense from America after the war. America had better not expect to be treated as a neutral country when the war is over."

The thousands who packed the huge auditorium, cheered vociferously when the former ambassador, now a prisoner of war, addressed two patriotic mass meetings here last night.

The Kaiser said, for a long time, refused to receive the ambassador of a country selling supplies to Germany's enemies. Mr. Gerard, who forced an audience, said: "I'll stand no nonsense from America after the war. America had better not expect to be treated as a neutral country when the war is over."

The two meetings, held under the auspices of the newly-formed Labor's Loyal Legion, was Minnesota's answer to German activities in the state, and as one speaker said, "Minnesota's war against the people's Council of America, which is to hold a peace meeting here next month."

Mr. Gerard declared that Admiral von Tirpitz openly advocated war on America. He said that the speaker said that by ruthless submarine warfare Germany would be able to take the English fleet and then come to America to collect money to pay all debts.

PRISONERS DYING FROM STARVATION

Escaped Canadian Brings Gloomy Picture of Life in German Camps

Montreal, Aug. 25.—A shocking story of brutality of the German army toward their enemy prisoners has been brought to Montreal by Lance Corp. M. E. E. Kittredge, 13th battalion, who, after being captured in Belgium, made his way into Holland after several months' travel through Germany, with little food. Kittredge makes urgent appeal for help to benevolent friends in captivity, declaring that without packages from home they cannot survive.

German men are dying from starvation at the rate of five to eight every day, and without parcels they cannot be saved," Kittredge is quoted as stating in his interview. The Russian prisoners, he says, are suffering from lack of food and are dying in great numbers.

Corp. Kittredge escaped last spring after spending 19 months as a prisoner in a German camp. He was captured in the battle of Ypres, April 24, 1915.

"Send your parcels to the boys in Germany or they will die; the parcels will get through in spite of the fact that the most important and strongest message I can give you," Kittredge said.

CUTTING GRAIN TO LEAVE IT ON GROUND

Kindly Farmers Cannot Get Help Though They Offer \$4.00 a Day

(Special to the Bulletin.)
Kindersley, Sask., Aug. 25.—Harvest is full swing with about fifty per cent. of the grain in the south and western part of the province cut. The yield is going to be away above the estimates of a month ago. Harvesting is a premium and are offered \$4.00 a day and are demanding more, a great many farmers, and it is impossible to get help and are cutting the grain and leaving it unshocked.

PACIFICERS HOME SEARCHED

LONDON, Aug. 26.—Police yesterday searched the London office and home at St. Albans of E. D. Morel, secretary of the Union of Democratic Control. Morel is one of the leaders of the pacifist movement and several newspapers accused him of pro-Germanism. The police carried several packages of documents from his office.

The Agricultural Association is making preparation for its annual exhibition on Sept. 14th. The exhibition will be held on the farm of Mr. recently purchased for athletic and exhibition purposes.
Hay making is the main occupation in the district these days. A fair crop will be secured. The stock association under the auspices of the "Cwp bill" has been organized recently. The association has had a visit from the inspector and they expect to be ready to purchase stock in a few days.
The Mitchell-Hill steam tractor outfit has commenced to break 300 acres on a section four miles north of the town. The tractor is kept going day and night.

PAKAN.

Bulletin Correspondence.
William Davies has exchanged the farm mill for the farm property of James Gorret, of Pine Creek. Mr. Garrett was formerly connected with the Lamont and Pakan mills. This morning with one team on board, causing a short delay.
The Red Cross picnic held here last week was a great success. The total amount raised being about \$375. Much credit is due to the ladies of the district for their efforts for the good cause. In a ball game after dinner, Andrew defeated the team of the air concert in the evening was enjoyed by the crowd. The sale of pigs, chickens, and other numerous donated articles took up much time. The long list of athletic sports had to be called off. A donation of a mare and colt still remains to be sold. The sale between Mr. Cromarty's and Mr. Norris failed to result in the township line on the north side of the Pakan township. This road will serve two purposes. At present it will be an open road for the settlers of the district to the west and north. This road will commence on the line between Mr. Cromarty's and Mr. Norris farm and run to the township line on the north side of the Pakan township. This road will serve two purposes. SION.

Bulletin Correspondence.
The motor travel is brisk both into and out of Sion. Many motors are being brought and taking a goodly number of passengers. Many are going to Lac La Poudre for fishing and boating. An electric or motor transport system would do well from Edmonton to Belvedere now, and be a boon to the inhabitants who not only could get to the lake but would be able to get their produce to that market. The present system being long, tedious and expensive, some of the co-head Edmontonians perhaps might with profit project such a convenience.
Sion, Aug. 24.

BASHAW.

BREMNER.

Bulletin Correspondence.
Wheat cutting started in this district yesterday, 20th. Mr. H. Horton being the first to harvest a fine field on the Dr. Collinson farm near the station. It is a splendid crop and is likely to yield as good as in any season in the past. Indications are that all crops in a radius of ten miles east and north of the station are in the shape, with a few instances where the straw is short on light land, but this may mean no reduction in the yield.
No hail damage is reported in this vicinity. The wheat crop is heavy. Brice is short and a somewhat lighter crop. It may yield well.
F. Tuttle and D. S. Hutton, near the Clover Bar station, have cut fine crops of wheat, the latter extending for one-half mile along the Clover Bar road.
Hot sultry days and heavy showers during the night for the past ten days have done their part in filling out the grain and ripening it well, it is hoped before any frost can do a damage to the crop.
Schools opened at the three surrounding school districts on Monday the 13th, at East Clover Bar, North Clover Bar, and at Clover Bar, in the junior department. The teacher for the senior school is Mrs. H. H. Hutton. Two new teachers have been engaged in the Clover Bar school. The other two schools continue with the same teachers as last year. J. A. Condie is teaching at North Clover Bar.
The community was grieved and shocked to hear of the fatal accident which resulted in the death of Mr. Albert Thomlinson, an old timer and a respected resident, and a prosperous farmer. While plowing poles on a large hay stack near his farm, the ropes broke and he was precipitated to the ground, about thirty feet, falling on some iron bolts and causing instant death. The funeral was held on Friday last at 2 o'clock, the Presbyterian minister at Adrossan conducted the funeral service at the house and interment took place at the Clover Bar cemetery. He is survived by his sorrowing widow and a large family, besides two brothers, Ernest and Clarence Thomlinson of the district, who, with their deceased brother, settled here some years ago, having come from England, where their father was a church of England clergyman. The service at the grave was performed by Rev. Mr. Wheeler of Clover Bar.
Bremner, August 21st.

FORESTBURG.

Bulletin Correspondence.
The farmers throughout the Battle River Valley section are about the happiest bunch of people to be found anywhere in the province.
The past week has been ideal for all growing crops and the late sown grain has made a fine growth. Potatoes and other vegetables have made good progress also. Some farmers are marketing potatoes which are very large and the crop is maturing rapidly.
The hay harvest is about over and a very large crop has been stacked throughout this territory. Many claim they have double the amount stored away this year than they were able to gather last year.
The sowing of the harvester is heard in every field of wheat at this time and the crop is rapidly ripening. Everybody is working over-time to harvest the big crop.
This town is now boasting of a dentist who is new and valuable asset.

HARVESTING OPERATIONS ARE EXPECTED TO BE GENERAL ABOUT MIDDLE OF THE PRESENT WEEK

In Full Swing in Eastern And Southern Parts Of Province And In Peace River District—Labor Conditions Now Satisfactory—Provincial Department Have Distributed 3,000 Through Their Agencies.

Weather conditions during the past week have been ideal for ripening and filling grain. There have been two or three hailstorms, one of which did considerable damage over a somewhat extended territory, where splendid crops were ready to harvest. During the past week officials of this department have visited a number of districts and report harvest operations quite general throughout the eastern and southern part of the province, with fair yields and good sample of grain, but that harvesting will not be general throughout the whole province until the middle or end of next week. Harvest operations are also in full swing throughout the Peace River district, which continues to report very optimistic conditions. Labor conditions are now quite satisfactory. Harvesters have arrived quite freely from the United States and eastern points. The department have contributed over 3,000 through their agencies and about as many more have been placed direct. A very favorable report has been received respecting livestock and vegetables.

Peace River.—Entire crop may now be considered beyond danger of damage from any ordinary cause. Harvesting is well under way in several districts and will be general all over the territory within the next week. Weather very favorable for ripening grain and assisting harvesting operations. We have good reason to look for fairly heavy yields of all cereals and a good potato crop.

Stony Plain.—Weather until evening ideal for ripening grain; rain and hail last evening. Several farms very backward. Haying practically finished. Very small acreage of grain out. Probable yield if not further damaged by weather will be very good.

Olds.—Ideal weather conditions for haying continues, which is well advanced. Some rye and barley being cut. One-tenth inches of rain on the 21st. No frost. Minimum temperature 42 to 53. Average, 45. Maximum, 65 to 81; average, 72.

Medicine Hat.—Weather favorable for harvesting. Most of the farmers are finished cutting. Grain threshing will be general in a few days. Corn and root crop will be light this year. No rain. Weather warm.

Charlevoix.—The weather has been warm, with one shower of rain for the week. Wheat ripening slowly and filling well, while some places are nearly ripe. It will be some days before cutting is general. Barley is ripe, so are some pieces of oats. Corn showed rapid growth for the week, as also potatoes and turnips. Livestock continues to do well.

Cardston.—Weather fine this last week. Grain ripening fast. Fall wheat cut. Cutting will be general next week in spring wheat. Oats and barley much improved since rain. Stock fine, condition generally quite promising.

WANTS MORE EVIDENCE AS TO INSANITY

Minister Of Justice Hears Application For Commutation In Moko Case.

Hon. A. G. MacKay returned from Ottawa yesterday, where, on the 16th, he had made an application to the minister of justice for a commutation of the sentence of Donald Moko, convicted at Peace River last month of the murder of Louis Lemay. The minister of justice will ask the trial judge to take further evidence as to the plea of insanity. There was no tradition to the evidence given in behalf of the defence as to this. A distinguished medical man was in attendance in behalf of the crown, but he was not called as a witness. It is understood that his opinion will be obtained if he is able to give one, and possibly other evidence.

F. D. BERTHAUME DIES IN EDMONTON

Former Resident Of City Was Here On A Visit To His Daughter.

Francis D. Berthiaume of Vancouver, a former resident of this city and of Leduc, died on Friday, August 24th, at the home of his daughter, Mrs. Cooper, 10343 103rd street, Edmonton, while on a visit here. He was 63 years of age and a widow, three sons and five daughters survive him.

The sons are F. H. Berthiaume of Leduc; W. H. Berthiaume of Grayby, Wis.; and F. D. Berthiaume of Vancouver. The daughters are Mrs. G. Garro of Detroit, Mich.; Mrs. F. Whitley of Edmonton; Mrs. J. Barley of Fort Saskatchewan; and Mrs. Mrs. F. Cooper of Edmonton.

Mr. Berthiaume came to Leduc in 1895 after leaving to this city and then going to the coast. The funeral will be held at 10 a.m. today from St. Joseph's church to the Edmonton cemetery.

POLICE COURT

That very shortly there would be nothing left on his farm worth having, it is alleged that Henry Schineke, a neighbor of G. William Gahr. The two, who live near New Sarepta, are said to be on bad terms and the remark was construed into a threat of damage on the part of Schineke.

In consequence, Gahr laid a charge of intimidation against the other man and the case was heard before Magistrate Barclay on Saturday morning. The accused was remanded for trial.

Edward J. Trumble, charged with an offense under the Liquor Act, was fined \$10 and costs, \$2.25.

PTE. LANGFORD A SOUTH SIDE BOY IS KILLED

Was An Active And Popular Member Of Metropolitan Church.

An official telegram received Saturday announced the death of Pte. Angus M. Langford, a well known and popular south side boy. He was the son of Mr. and Mrs. Newton Langford of 10422 84th street. He was a member of the Army Medical Corps and had been in France for two years past. He was about 20 years old. He was a student of the high school at the time of enlisting.

Pte. Langford was a member of Metropolitan Methodist church and was a very active member of the young men's class in that church and extremely popular. His death will cause the greatest regret and sorrow among a host of friends who knew him and appreciated his worth.

His brother Louis, who joined for overseas service when only 16 years of age, in the same branch of the service, was most anxious to be with his brother and was finally made a stretcher bearer on the same stretcher with Pte. Angus Langford. As far as is known, Pte. Louis Langford is alive and well.

DR. McNALLY ON LIST OF MISSING

Lieut. P. B. McNally, Fredericton, N. S., reported missing in the casualty lists of Aug. 21st, is thought to be Dr. McNally, the well known dentist of the south side. He left Edmonton in the fall of 1915 with the dental corps, was transferred overseas to the 50th battalion, was wounded Aug. 10 and 8 years respectively recovered but was unable to return to the trenches. Nothing daunted, he went into the Royal Flying Corps and when last heard from on July 17th, he was just completing his course of training and was preparing to go to the field of action once again.

PTE. A. E. ALDE OF EDMONTON KILLED

Official news of the death of Pte. A. E. Alde, drummer of the 194th Edmonton Highlanders, has been received by Mrs. Alde, Room 25, Grand Apartments, who was reported killed in action July 20th.

Pte. Alde was born in Hamilton, Ont., April 12th, 1884, of Scots-Irish parents. He was a non-commissioned drummer for the Edmonton Shell Co. previous to enlisting in the 194th Highlanders on March 22nd, 1916. He leaves a devoted wife and three daughters, aged 13, 10 and 8 years respectively. Also a mother, aged 73, residing in Seattle, Wash. Three brothers, two of whom are in Seattle and one in Hamilton, A. sister, wife of Ben Olson of the Western Foundry and Machine Co. in this city, and another sister, Mrs. McPhail of Veilans, Ont., no survivors. Pte. Alde was well beloved by his family, relatives, friends and acquaintances, as he was a tender father, of a cheery nature, sunny disposition and irreproachable character. His memory will be affectionately cherished not only by his sorrowing family but also by all who knew him and for whom he willingly made the supreme sacrifice.

EDMONTON CANNOT AFFORD A PLANE

Mayor Henry Has Been Obligated To Decline The Cost—Each Machine Costs \$7,600.

Edmonton has been asked if it would like to contribute an aeroplane for overseas service, but Mayor Henry has been obliged to decline the honor, on account of the financial state of the city. The cost is \$7,600 and if destroyed, the aeroplane which replaced it would take the name of the City of Edmonton, thus maintaining the continuity.

Edmonton, however, will be represented in the service, as J. Caruthers of Montreal, who is interested in Edmonton property, has presented three to the British Government, and one will be named "The Edmonton."

The City of Toronto has given three aeroplanes.

BELIEF THAT GIRL DROWNED HERSELF

Body Of Daughter Of Murdered Woman Found In The Saskatchewan.

The body of Rosie Wylansky of Bruderheim, the missing woman in a murder and suicide tragedy that started Alberta in July, has been recovered from the Saskatchewan river a few miles below her parents' home by provincial police officers. An inquest will be held to determine the cause of death. It is believed the girl committed suicide following the killing of her mother by a disappointed lover of Rosie's, whose body was later found hanging from a tree.

PAYS TAXES BEFORE CITY MAKES CLAIM

One Edmonton Citizen Is Out To Make History, Civic Officials Say

There is one citizen in Edmonton who means to make history.

He has called on Assessor Walker and has paid his taxes for 1917, amounting to \$110, and it has been suggested that his name should go at the head of a new honor roll.

The formal demand has not yet been made for the 1917 taxes as the assessor's department is now busy on the notices, which will be issued on October 1st, which will be a month earlier than last year. It must be remembered that the 10 per cent. discounts on payments are only given until the end of October, and a discount of 5 per cent. through November.

In response to the representations made to council by Ald. Kinney, more details of how the mill rate is made up by the different amounts required for civic purposes will be given on this year's notices. Previously only the heads of assessment were given, now the following details will be included: General rate, Hospital board, 48, protection of life and property, 2.88, charity grants, donation, .34, general 5.20, total 5.90. Debenture rate: Hospital board, .48, exhibition board, .17, protection of life and property, .61, general 7.75, total 9.50. Schools 7.75, library 0.35. The whole makes up the rate for this year of 26.50 mills.

MANY WAR RIBBONS IN RETURNED PARTY

Nearly Thousand Officers Reach Halifax, Some Wounded, Some for Duty

Halifax, N.S., Aug. 26.—Many military crosses and other war decorations were to be seen in a military party of about a thousand officers which reached here Saturday aboard steamer from the old country. There were a number of well-known people on the liner. The officers include some who are returning to recuperate, others on leave or to be assigned to new duties, and a number who have been returned to the Dominion as surplus to military requirements.

Major Forrest, who has been at the front as chaplain, after a visit in Canada, will return to act as assistant director of the chaplain service in England.

Among western officers on the steamer was Lieut. G. E. Murray, of a Saskatchewan regiment. Colonel Beverley Armstrong, officer in charge of the party, will resume his duties as D. A. O. Q. M. G. here. He said he would have a message for the wives and mothers of many of the boys he saw while in France.

Quebec, Aug. 26.—In the Superior court Hon. Albert Sevigny has entered today an action for damages to the amount of \$800, against Le Canada, of Montreal. The action is the result of articles published in Le Canada.

NOTHING GIVEN OUT SAYS MR. SEPTON

Winnipeg, Aug. 26.—"Nothing will be given out now or hereafter on the deliberations of the Liberals," declared Hon. A. L. Sifton today, who declined to discuss the meeting being held here of western Liberals to consider union government proposals.

APPLICATION FOR STOCK

The men who organized the company had faith in their proposition and proceeded to give evidence of that faith in every move in the forming of the company.

We call particular attention of intending investors to the following clause of the prospectus:

This property has been obtained on very favorable terms and the seventy-five thousand shares paid are placed in escrow and cannot be offered for sale in competition with the company's treasury stock. These shares are to be placed in escrow with the Bank of British North America and to be held there until the company has paid a dividend of at least 8 per cent. the subscribed capital without impairing its ability to continue operations on the same scale.

One feature will appeal to the man who wishes to invest in the fact that not a dollar of the stockholders' money goes to pay salaries of directors. All money from sale of shares is to be used in developing the property.

Your financial support is in cooperation with that of every stockholder in producing returns for the investment and no man connected with the company in any way gets a dollar for nothing. The company's officer's and their fiscal agent will at any time gladly furnish in detail every phase of the proposition.

FIRST TOUCH OF AUTUMN IS IN THE AIR

Golden Rod And Asters Line The Roadsides And Stocks Appear In Harvest Fields.

Dame Nature shifted the scenes yesterday, in that deft way which the old lady has, and presto, the trailing robes of Summer are swishing off the stage and opportunist Autumn is making her first smiling bow across the footlights. There was a real autumnal feeling in the air yesterday. You sensed the change as soon as you went out of doors. The sky was as blue and the sun as bright as ever, but there was a tang, an edge, that signified that the fall was coming.

Golden rod and asters, those floral attendants of autumn, lined the roadways with their purple and gold. Here and there in a thicket a few leaves had been painted yellow overnight, the first experiment in coloring which Jack Frost will presently bring to bear all over the woodlands.

In the fields and gardens crops were hastening to maturity. Stocked grain showed that the harvest operations were already under way. Potatoes had lost somewhat of that vibrant green and the swelling globes of turnips and beets, pushing shoulders high from the mellow earth, foreshadowed the time of gathering into bins and the fulfillment of promise.

The wind, somehow, had lost the mellowness of Summer. There was a tender zest to it which reacted on the spirits. The air was crystal clear. There was a decided increase in mental as well as physical activity. Distant objects grew clearer to the vision and sounds travelled through the air more distinctly. There was a decided increase in mental as well as physical activity.

One felt that it was about time to lay away the straw hat for the season and that an overcoat would not be unwelcome after the sun had set. Holiday recessed and merchants planned their fall business, lawyers thought of the gravel so removed and children turned their ideas to the fall term of school.

Perhaps in a day or two the thermometer will go up again and the ice cream cone flourish as of yore, but the magic touch will have been its effect. It will not be real summer again. Last night there was a suspicion of frost and the proprietors of vegetable gardens which were still susceptible to damage, sniffed the air with anxiety and marked well the scintillating stars in the firmament. The local weather officer, however, bade us be of good cheer. While the barometer stands high and the wind is from the south there is no likelihood of frost, it announces. So let the tomatoes and the vegetable marrows distort themselves in the sunshine a little longer. It may be autumn that is upon us, but it is a long, long way to winter, yet.

SAYS DETECTIVE BROKE INTO BARN

As a Result A. H. King Is Claiming Damages From the City of Edmonton

A rather peculiar claim for damages has been presented to the city.

This is from A. H. King, lessee of a barn at 495 Fensholt Ave., generally known as the Great West Barn. On his behalf J. A. Clark is asking for damages, alleging that the barn was illegally broken into and entered by one of the detectives of the city police force during June or July.

GOLDLANDS LIMITED

Offers a sound investment, for gold is one metal that never changes in value and we now own leases of 430 acres of gold-bearing gravel as an asset.

The property has been tested by sinking about 30 pit holes over the entire property to a depth of 10 feet, and about a dozen bank cuts eight feet deep. The gravel was taken from each pit to a depth of three feet. Then the gravel so excavated was put in a rocker and the gold was separated by rocking. The result per cubic yard was thus ascertained. Then a further three feet in depth was excavated and treated in the same manner and so on. Gold tested from 20¢ to \$1.00 per cubic yard, the values increasing at the greater depth, and when coarse gold was always found. Which proves that the ground is without a doubt an immensely rich one.

Mr. Campbell states in his report on the property that the whole area of 430 acres will average 50 cents to the cubic yard to the depth of the first ten feet, and has the best of reasons to believe from the results of his tests that the values will increase until bedrock is struck, where high values will no doubt be found.

The following is a copy of report of the value of the gold taken from the property:

Edmonton South, June 1st, 1917.

GOLDLANDS LIMITED,

clo J. W. Grant, Esq.,

Edmonton, Alta.

Dear Sir,—I beg to advise that I have assayed sample of gold submitted by you and find the fineness of sample to be Eight Hundred and Thirty-Two—832/1000.

With gold at a value of \$20.67 per oz., the value of the sample submitted is \$17.20 per oz.

The Daily Poem

A MOTOR CAR TRAGEDY.

I have a dandy motor car,
Also a note to pay,
But why should I remember that?
My business, night and day,
Is hurry, not worry.
To get there—no matter where—
And wonder what in thunder
I came for anyway.
And when I'm going to park,
And say!
I thought this town some size,
But here it is, by gum,
As full as Noah's Ark!
And who knows what we'll do—
I don't do you?
I pass unless, perhaps,
Some fellow builds a car
That will collapse.

Later.

Oh, no, I like to walk!
Some geezer stole my car,
And that just goes to show
How both these coppers are—
Why, honestly, I'm told,
They couldn't catch a cold.
As for the thieves themselves,
They're organized, I see,
From from state to state
To do their deviltry.
Robbed by imported thieves!
That surely is the worst;
In thieves, as in all else,
I'm for home talent first.
The foreign devil! How I wish
I had them by the throat,
To think they'd steal a fellow's car
And leave his note!

Mrs. Chenik visited Mrs. T. J. West while in Ponoka for a few days last week.

Mrs. G. L. Crozier of Milestone, Sask., and Mrs. Macleod of Edmonton are visiting in Ponoka, the guests of Mrs. G. C. Neff.

Mrs. William Hodge of Innisfail, who visited her daughter, Mrs. W. H. Dodge, for several months, has returned to her home.

Mrs. Charles Taylor of Wabamun and little son, accompanied by Mrs. Taylor's mother, Mrs. Wabamun, of Toronto, have been in the city a few days en route to Fernie, B. C., where they will visit for two weeks. Mrs. Taylor and her mother are en route to the coast, from which she has been absent for many months.

Owing to the rainy, unsettled weather, the tennis tournament which was to have taken place at the Christ church grounds on Saturday for the Red Cross Society could not proceed as the courts were too soft and wet. However, there were about twenty-five players in attendance and all stayed to have afternoon tea, which rewarded the Red Cross ladies for their trouble in preparation. At 5:30 the members of the Patricia Square courts invited the rest to repair to their courts and have a friendly game. As the weather had cleared sufficiently the invitation was accepted and the players were not disappointed of a game after all.

Financially and otherwise the silver tea and evening entertainment given at "Norwood House" on Saturday under the auspices of the Ladies' Aid of Erskine church was a success. Tea, sandwiches, ice cream and cake were served in the afternoon, and in the evening an interesting program was rendered. The pastor, Rev. Mr. Thomson, was in the chair and selections were given by a three-piece orchestra of Erskine church, the members of which were Dr. McPherson, Mrs. J. Scott and Mrs. Bentley. Mrs. D. Lookman sang a solo. Two numbers from the mixed quartette were much enjoyed. The quartette was composed of Mr. and Mrs. Leslie, Miss Lillian Cline and Miss Mabel. Miss Mabel Young also sang a solo.

Peach Cobbler Recipe
To the Editor of Woman's Page:
Dear Madam—Please print directions for making peach cobbler.

Fill a deep earthen baking dish with ripe peaches which have been skinned and halved, leaving a few stones in for flavoring. Add one-half cupful ice water and one-half cupful sugar. Bake in a pastry crust; bake and serve hot or cold, with cream.

Recipe for Cheese Straws
To the Editor of Woman's Page:
Dear Madam—Several days ago one of your menus mentioned cheese straws. Will you tell me how these are made?

READER.
Cheese straws—One-half cupful flour, one tablespoon shortening, one-quarter cupful salted cheese, one-eighth teaspoonful mustard, one-quarter teaspoonful paprika, one-quarter teaspoonful baking powder, sufficient water to make a stiff dough. Rub the flour and shortening together with the finger tips, add the cheese, baking powder and seasonings, and mix with ice water. Roll out in four layers, roll out again and fold as before. Place on ice to chill, roll out one-third of an inch thick and cut into four-inch straws. Bake in a hot oven. These can also be made from dough left over after you have been making pastry for some other purpose.

Farewell to Samece.
To the Editor of Woman's Page:
Dear Madam—I am a reader of your column, which I find educational and interesting. At present I am in doubt as to what to say when bidding farewell to a friend who is leaving the front and I realize this is a queer request, but would like to know if simply wishing him good luck and a safe return would be sufficient. Of course, I feel proud to be a friend of one willing to fight, and I know he realizes it.

ANXIOUS.
You have the right idea. If the young man is a friend and nothing more, simply wish him good luck and a safe return; you might also venture to tell him that you feel proud to know one who is not a slacker. The things you say will be said with such sincerity that you cannot help but make him realize it.

Saskatoon Man Admires Market Advantages at Edmonton

Butter and Eggs Scarce—Vegetables Plentiful—The Market Described.

Among the crowd that thronged the Edmonton City Market this Saturday was a man from Saskatchewan who made several purchases. To the Bulletin he stated he wished that there was something like it in the part of the west where he lived. He not only admired the fine fresh vegetables and the plump young poultry, but also greatly appreciated the advantage of the market to both the producers and consumers at Edmonton.

The non-delivery of the goods has a few amusing features at times. The baby buggy is a favorite conveyance. In one instance while the baby cooed in its carriage a plump cabbage rested snugly on the frame underneath. Nearly every citizen who left the building carried a purchase of produce in some manner.

Butter and eggs were scarce compared with the vast quantity of vegetables which were offered by the gardeners of the city and district. Poultry was in demand. Berries were scarce.

Mr. and Mrs. Ives of Leduc district drove all night from their farm, 28 miles to the city market, sitting on the top of their wagon box, which was packed full of produce from their farm garden. A thunder storm was raging at 11:30 p.m. when they left home and it was raining in sheets as they drove along the rural roads, guiding their horses by the light of the lightning. They reached the city market at 7:30 a.m. and were lucky to get second place in the long row of rigs ranged under the shed.

Mrs. Ives assisted her husband in selling the fine crop of vegetables which included 15 bushels of beans, 24 bushels of peas, and a large quantity of cauliflower and turnips. No doubt they were both sleepy though they had their eyes open for business. For such producers a trip to market means a busy Friday gathering and loading the produce, an all-night drive in a thunderstorm, a busy day selling on the market, followed by the drive homeward after the big wagon load of stuff is all sold.

Other instances might be cited of farmers who spend from two to four days on the round trip from their farm to the Edmonton City Market, where their "fresh from the farm produce" usually meets with a ready sale.

Piles Cured By Dr. Chase's Ointment

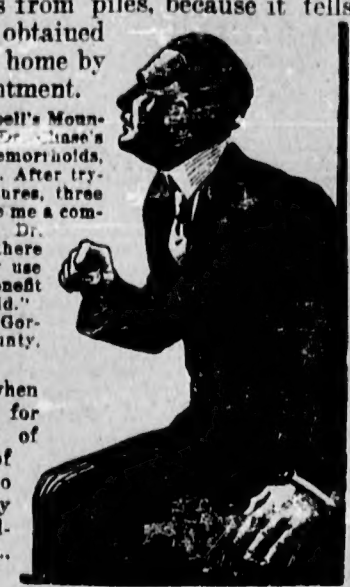

It is a surprise to many to learn that there is any cure for piles short of a surgical operation. The doctors have encouraged this idea until the sufferer from this annoying ailment lives in constant dread of the surgeon's knife.

This letter from Mr. Campbell carries a message of good cheer to all sufferers from piles, because it tells how relief and cure can be obtained in the quiet of your own home by the use of Dr. Chase's Ointment.

Mr. Donald M. Campbell, Campbell's Mountain, N.S., writes: "I have used Dr. Chase's Ointment with great success for hemorrhoids, or piles, of fifteen years' standing. After trying all kinds of so-called pile cures, three boxes of Dr. Chase's Ointment gave me a complete cure. I have also used Dr. Chase's Kidney-Liver Pills, and there are no others so good. You may use this letter, if you wish, for the benefit of others who may suffer as I did."

(Sworn before me, Murdoch Gordon Campbell, J.P., in the County, and for Inverness County.)

You are not experimenting when you use Dr. Chase's Ointment, for it has an unparalleled record of cures to back it up. Beware of imitations and treatments said to be "just as good." They only disappoint. 60c a box, all dealers, or Edmondson, Bates & Co., Ltd., Toronto.

SCOURGE OF TYPHOID FATAL TO THOUSANDS IN GERMAN CITIES

Depression in Fatherland Over War Intensified by Epidemic of Maladies Attributable to Insufficient and Poor Food

LONDON, Aug. 25.—Reports in Berlin newspapers received here show better than had been understood that depression in Germany in regard to the war and its outcome has been intensified by a fearful epidemic of typhoid fever, dysentery and other complaints attributable to insufficient and bad food, which is breaking out in all parts of the empire. It is no longer possible to conceal this, despite the utmost effort of the government.

Basle and Zurich, in Switzerland, report that full confirmation has been received of a serious outbreak of typhoid and dysentery at numerous German cities, particularly Cologne, Karlsruhe, Mannheim and Mulhouse, where these diseases have become epidemic, children and underfed adults being the first and most numerous victims. In Mulhouse the epidemic threatened to develop a panic. Deaths were so numerous that wagons were used to make the rounds nightly and gather the dead under cover of darkness to prevent the people learning how grave the situation was. These developments are influencing German opinion more than military factors, even in the Westphalian industrial centre where war work is centered, and the greatest effort has been made to provide food and other necessities. Conditions there are so bad that labor is in constant turmoil and the people are greatly disappointed because for a long time they have been held up by promises that England surely would be starved and compelled to make peace by August.

QUIT ON EASTERN FRONT.
BERLIN, Aug. 26, via London.—No further gains on the northern end of the Russian front, where the Germans have been advancing, are reported in today's official statement.

63.83 CENTS FOR WOOL.
Calgary, Aug. 25.—The Southern Alberta Wool Growers' association has accepted a bid of 63.83 cents a pound from a Toronto firm for 646,000 pounds of wool.

FRENCH BOAT SAVED YANKEES

Paris, August 24.—(Delayed)—A French steamer went to the assistance of the American steamship Campania, which was torpedoed and sunk by a submarine on Aug. 6. The French vessel was attacked by both torpedo and submarine, but repelled energetically and notwithstanding losses, compelled the submarine to abandon the fight.

On the arrival of an American port this week of 46 survivors of the tanker Campania it was reported that the submarine which sank the vessel and took prisoner her captain and five of the crew was destroyed on the same day by a French patrol steamer.

WEATHER NEWS

Wheat Prices Remained Unchanged on Last Day for Futures

Chicago, Aug. 25.—Although week-end evening up of contracts was expected today the corn market opened easier.

Heavily sentiment seemed to sway most of the trading, favorable weather conditions having weight. Opening prices were unchanged to 5c lower with December at 110 to 110½ and May at 107½ to 108. Slight fractional advances were followed by declines within the same narrow limits.

Wheat prices were unchanged, at the opening today, the last day of trading in futures before the government takes over the handling of wheat, September 1. Announcement was made of the appointment of a board of trade committee to fix the price at which open September contracts should be settled.

September wheat started its last day unchanged at 23½.

Oats opened with September a shade higher and the more distant months somewhat easier. There was little selling pressure and small fractional price changes were recorded.

Weakness in the live hog market was shown in lower provision prices, no marked decline, however, being observed.

HIGH GRADE WHEAT AGAIN IN DEMAND

Fair Demand for Higher Samples in Cash Market at Winnipeg

GOVERNMENT A BUYER

Eastern Men Were in the Market for Cash Oats with Few Offerings

Winnipeg, Aug. 25.—There was a resumption of demand for low grade wheat in the cash market today. The demand for the higher grades was also strong. The buyers were government agents and mixing houses. The price for No. 1 and 2 northern remained unchanged, but quotations for other straight grades improved half a cent. The quality of demand was considerably short of requirements.

There was a good inquiry for cash oats from exporters, shippers and exporters, but sellers were slow in coming forward. Prices remained unchanged.

Barley was also in good demand at Friday's prices.

There was a very active demand for No. 1 N.W.C. flax and the premium advanced four cents to 50¢. The business done in the flax market was a sharp advance in the price of No. 1 flax to 35¢, a new high record for the Winnipeg market. The volume of actual business was out large. Some attention was paid to October wheat, and suggested lower during the session but recovered some during the last hour. Future trading in wheat ceased in the Winnipeg exchange today, but quotations for transactions are of a squaring up nature.

Transactions in oats were confined to the October option. Prices opened a fraction lower than yesterday's close and showed an easier tendency during the session. Trade was quiet and no business was done. October flax closed 1¢ higher, October oats 1½¢ lower, December 1½¢ lower and May 1½¢ down. October barley was unchanged, October flax closed 9½¢ higher, November 10¢ higher, and December 8¢ higher.

Winnipeg October oats opened unchanged to 5¢ lower at 53½¢ to 53¢. December was 5¢ down at 50¢. October flax opened at 34½¢, within 15 minutes of the opening it went to 35¢. This is the highest price ever paid for October flax in the Winnipeg grain exchange. These were the only quotations posted on the board for the first half hour of the session.

There were 83 cars inspected at Winnipeg, out of which 50 were contract. Out of the 50 contract cars 42 were this season's No. 1 Northern.

Weather in Alberta and Manitoba generally fair and clear. Saskatchewan generally cloudy. Temperatures generally lower.

FOUR RECORDS BROKEN AT U.S. TRACK MEET

**F. J. Shea Covers 440 Yards In
49 Seconds — Best Ted
Meredith.**

PHILADELPHIA, Pa., Aug. 26.—
Four records were broken and one
equalled in the Middle Atlantic A. A.
U. track and field championships on
Franklin Field here yesterday. The
Meadowbrook club won the title for
the first time with a score of 96 1/2
points. The Germantown boys' club
was second with 37 points and Pitts-
burg A. A. third with seven points.
F. J. Shea of the Pittsburgh A. A.
shattered the record in the 440 yard
dash, running away from Ted Mered-
ith of Meadowbrook, former Penn-
sylvania star, who was beaten for the
first time on Franklin Field. Shea's
time was 49 seconds flat. Meredith's
former record was 50 2/5.
Howard Berry, former Pennsylvania
Pentathlon star, carried away another
record. He threw the javelin 162
feet one and one quarter inches, beat-
ing the former mark of 146 feet 11
inches held by J. L. Brechemin.
Harold Barron, captain of the state
college team, wearing the Meadow-
brook colors, did 120 yards high hur-
dles in 15 3/5 seconds, beating Bob
Ferguson, of the Germantown B. C.,
and lowering his own former record of
16 1/5 seconds.
R. L. Hunter, of the Germantown
B. C., made a new mark of 11 feet
10 1/2 inches in the pole vault, beating
the record held by Henry Johnstone
by a quarter inch.
Ferdinand Motely, of the German-
town B. C., won the 100 yard dash in
10 1/5 seconds, equalling the record of
Harry Pierson, of Germantown.

CLINE OUTFIGHTS LUSTIG
NEW YORK, Aug. 26.—Pat Cline
of this city outfought Johnny Lustig,
also of New York, in every round of
a hard ten-round bout here last night.
Cline weighed 138 pounds and his op-
ponent 136.

Bagby Wins Twentieth.
CLEVELAND, Aug. 26.—Cleveland
took a game from Washington today,
2 to 1, each of Washington's errors re-
sulting in a run. With the score a
tie in the ninth, Smith got on first on
Morgan's error, stole second, and
scored on Wambach's single. It was
Bagby's twentieth victory of the
season, he being the first American
league pitcher to win that number of
games.

Cardinals Take The Two.
ST. LOUIS, Aug. 26.—St. Louis took
both games of today's double header
from Philadelphia, the first in 11
innings 6 to 5, and the second 9 to 5.
St. Louis won the first game on a
balk by Schauer, who had replaced
Noyes in the ninth. Philadelphia
staged a belated rally in the second
game when Groom weakened in the
ninth, but it fell short four runs of
tipping the score, although the visitors
had the bases filled when Dugan fanned
for the third out. Score:

Sporting Facts and Fancies

The Yankees might as well throw up the sponge. The fact that Lamar, Fowler and Thormalen will join the team on Sept. 17th is not going to help them any.

Some of these veterans do defy time. There's John Hummel, for instance. Baseball is mighty wearing, but John stands the game very well. It is almost fifteen years since he joined the big league coming from Holyoke to play for the Brooklyn. He still is good enough to hold down a regular infield berth in Class AA society, for he is playing first base for Buffalo, and playing it well.

Jack Snyder of the Baltimore Club of the International League is going to play with the Robins, who have recalled him because of their growing need of another catcher.

Baseball astronomers say that they have discovered a new pitching star in the person of Bob McGraw, the youngster tried out by Bill Donovan at Macon last Spring. McGraw is pitching stellar ball for the Newark Club.

Today in Pugilistic Annals.
1886—Jack Dempsey was knocked by "Marine George" La Blanche in thirty rounds at San Francisco. This was the first defeat ever suffered by Dempsey, who was the first Queensberry middleweight champion. The purse, \$5,000, was the largest ever offered for a middleweight bout up to that time. Dempsey out-fought La Blanche up to the thirtieth round and seemed a certain victor when the "Marine" landed a terrible left to the jaw that stretched out the middleweight champion for the count. The loser of the bout was to receive \$500, and it is alleged that earlier in the bout La Blanche had offered to quit if Dempsey would give him \$500. Jack begged for a return match, but La Blanche forfeited the right to the title rather than meet him again.

1907—Sam Langford outpointed Larry Temple in 10 rounds at Chelsea, Mass.

1908—Joe Jeanette defeated Sandy Ferguson in eight rounds at New York.

1912—Jack Britton knocked out Eddie Murphy in eleven rounds at Boston.

Adventures of Uncle Wiggily

By Howard R. Goss

Uncle Wiggily and Lulu's Bouquet

Copyright, 1917, by the McClure Newspaper Syndicate.

"My dear Uncle Wiggily," said Nurse Jane Fuzzy Wuzzy, the muskrat lady housekeeper for the rabbit gentleman, as she saw him sitting on the stoop of his hollow stump bungalow one day, "I am going to ask you a favor."

"You cannot ask me anything that I will not do for you if I can," spoke the bunny with a low and polite bow. "What is it?"

"Well, you know I am taking painting lessons," went on Miss Fuzzy Wuzzy. "I am learning to paint flowers on china plates and some day I may even paint the bungalow."

"Fine!" cried Uncle Wiggily. "But just now," said Nurse Jane, "I am painting a picture to hang in the parlor. Only I have used up all my blue, green, yellow, pink and red paints, and I want to know if you will get me some more."

"Of course," will right gladly," cried the bunny, and soon he had hopped to the store where he bought many different colored paints for Nurse Jane.

As she started to finish the painting Uncle Wiggily went off in the woods to look for an adventure. He hopped on and on, but nothing happened to him, and by and by it began to get dark.

"I guess it's time for me to go home to supper," said Uncle Wiggily. "No adventure for me today, I'm sorry to say!"

So he hopped on a little farther, and he was just going to turn up the grassy lane that led through the woods to his bungalow, when, as he came near the Wiggiblewobble duck house, he heard a voice saying:

"Oh, dear! I can't find my bouquet! Oh, I don't know what to do, and it's too late to do anything else!"

"Ha! This sounds to me like trouble!" said Uncle Wiggily most cheerfully. "Now if I can only help some one out of a little bit of an adventure, and my day will end happily."

So he went up to the duck house where Jimmie, Lulu and Alice Wiggiblewobble lived, and knocking on the door, Uncle Wiggily asked:

"Is anything the matter that I can help?"

"Oh, Uncle Wiggily! I don't know!" cried Lulu as she opened the door. "I was going to a party this morning, and I don't know what to do, and it's too late to do anything else!"

"Your dancing bouquet!" cried the bunny uncle in surprise. "I didn't know a bouquet could dance."

"It can't," answered Mrs. Wiggiblewobble. "What Lulu means is that she was going to wear a bouquet as she danced. But she can't now."

"Why not?" asked Uncle Wiggily. "Because the flower-man sent her home a bunch of duck weed and watercress instead of pretty blossoms!" Mrs. Wiggiblewobble. "Her father ordered it for her on his way to the cheese factory this morning, and I think he made a mistake. Anyhow the man sent nothing but some green weeds for Lulu."

"And I can't wear these to a party!" said Lulu, half crying, and she held out the duck weed and watercress.

"Of course not," said Uncle Wiggily. "This is very pretty and good to eat, but young duck girls who go to a dance want some bright flowers to wear. Let me see, maybe I can fix it."

"Oh, can you?" eagerly cried Lulu, as Uncle Wiggily twinkled his pink nose. "It is too late to get other flowers, as the shop is closed, and the blossoms that grow in the woods are nearly all dead now. Oh, dear!"

"Don't worry," kindly said Uncle Wiggily. "Let me have that bunch of green bouquet."

So they gave it to him and he took it to Nurse Jane Fuzzy Wuzzy.

"Here!" he called to the muskrat lady housekeeper. "You can paint flowers, and I brought you some fresh paints this afternoon. Just paint some roses, lilies, pansies and sweet peas on these green leaves, and make a nice bouquet for Lulu Wiggiblewobble."

"Right gladly will I do that!" said Nurse Jane.

Soon she was busy with her colors and paint brushes, and in a little while you would never have known that green bunch of watercress and duck weed.

For, on some of the green leaves the muskrat lady had painted pink flowers and on others red, and on still others blue and on the last ones, yellow posies, until there was a most gorgeous bouquet.

"Oh, how lovely, and how kind of you and Nurse Jane!" cried Lulu, as she saw the change Uncle Wiggily had made. And when the duck girl wore her flowers to Kittle Kat's party, every one said:

"Ah-a-a-a!" just like a skyrocket.

So this evening that even china painting is of some use in this world, and if the evening shadows do not fall on the moon beams and blow the stars dust all over, I'll tell you next about Uncle Wiggily and Alice's stockings.

GERMAN POLITICAL CRISIS AVERTED

Chancellor Michaelis Incurs Displeasure of Press — Copies Holloweg

The Hague, Aug. 26.—The latest German crisis has doubtless been a storm in a teacup but one likely to entail far-reaching consequences, as the press admits. The French West-Phalican Gazette says there is no doubt the present interior crisis was only postponed, and that the present moment is of slight duration.

The Tageblatt says the crisis is only temporarily averted. Koelnische Volks-Zeitung says Germany's enemies will soon be able to talk of German lack of interior unanimity and advises the committee to choose another path. "The highest authority in the empire has already declared against the annexations."

The majority party, without doubt, intends to make use of every opportunity to use its influence and gain power, and the government and the opposition are in a position to use the agitation as an advertisement abroad and at home of Germany's democratic spirit, although in reality the reichstag is still powerless and impotent.

The mere fact that the chancellor can serenely continue with practically no support indicates this. The chancellor has already attained the undignified position Bethmann-Hollweg held when ousted, namely, the distrust of all parties.

London, Aug. 26.—Under the heading "The Chancellor's Two Voices Give Disaffection in the Reichstag," dispatch from Amsterdam on Friday to the Times, concludes:

"It is clear that the Centre, supported by the Socialists, will give Michaelis a peace while he pursues his present shiftily tactics toward them. His fall in the near future would occasion no surprise."

Today We Celebrate Anniversary of Napoleon's Last Great Victory

One hundred and four years ago today at Dresden, Napoleon's star blazed out in full brilliance for the last time. He defeated the Russian army, and the allies who had besieged the Saxon capital, the "Man of Destiny" gained his last important victory.

Two days later the Austrians had begun their attack on Dresden, and St. Cyr's outposts were driven into the city. On the 26th the populace, mad with fear and on the verge of despair, were overjoyed by the arrival of Napoleon. He brought a strong army to the defense of the city, and was received by the King of Saxony and King Myrat, who had at last come from Naples to cast in his lot with the Emperor. The allies attacked in force that day, but met with a murderous fire.

On the following day, August 27, 1813, Napoleon launched his master stroke. As the sun cast its first beams over Dresden, the Grand Army poured its columns out of the city, and the allies were routed. The Austrian left wing crumpled before the assault of Murat and Victor. Napoleon, with the greater part of the artillery, followed the centre, and the allies were defeated with great slaughter, and in disorder fled back into Bohemia. Vandamme drove back the Prince of Wurtemberg, but he pursued too far, and three days later he was defeated at Kulm, his division was cut to pieces and he and his staff made prisoners.

One of the tragedies of the battle of the greatest generals of the French Republic, who had turned against Napoleon and joined the staff of the Czar Alexander. He was standing by the side of the Russian ruler when he was struck by a cannon ball. His legs were immediately amputated, but the operation did not save him and he died a few days later.

"That rascal Bonaparte is always lucky," remarked Moreau, as, mortally wounded, he was dragged from under his horse. But luck had abandoned the Emperor. On the night of 194 years ago the army of the Corsican camped for the last time on a victorious battle-field.

Moreau, dead and buried, who defeated Napoleon in the subsequent conflicts. He had outlined the plan for destroying his former master, and this scheme was carried out after his death. Moreau had urged that a general battle be not risked, but the corps of the French were to be engaged, one by one, until the parts of the army were disorganized, and the great generals of Napoleon were defeated and the conqueror was finally driven from Germany.

Today is the feast day of St. Joseph Calasanz, one of the founders of the Catholic schools for the education of the children of the poor. The thousands of parochial schools throughout the world are, in a large measure, monuments to St. Joseph, who was born in Aragon about the middle of the sixteenth century. It is related that when he was only five years old he organized an army of children to "find the devil and kill him." He began his educational work in Rome, where he soon had over a thousand children in his care. To carry on his work he founded the Order of Clerks Regular of Pious Schools. Like most other men of that time who sought to serve humanity, he spent his last days in prison.

Today's Anniversaries

On August 27, 1664, articles of capitulation were signed by the Dutch by which the colony of New Amsterdam, which included what is now the city of New York, became subject to England. The articles provided that the colonists should remain free citizens, with the right to retain their estates; that they were to enjoy their ancient custom with regard to inheritance; that they were to worship and church discipline, and were allowed free trade with Holland. The dutiful Governor Stuyvesant at first refused to ratify the treaty and hold out for several days, but he was finally persuaded to affix his signature. On this date in the year 1883 the island of Java lay devastated after the most destructive volcanic explosion of modern times. The island of Krakatau, from which the volcano derived its name, was almost blown to atoms, and the ocean wave which reached the neighboring island coasts caused an immense destruction of life and property. The explosion produced world-wide effects. Air and ocean waves passed around the earth and the Atlantic coast of America was overflowed. An extraordinary quantity of fine dust was blown into the air, and this was undoubtedly the cause of the remarkable red sunsets which were observed immediately afterwards in all parts of the world and which continued for several years.

COL. CHOWN BACK IN CANADA. Halifax, N.S., Aug. 26.—Colonel (Dr. S. D.) Chown, general superintendent of the Methodist church in Canada, arrived here yesterday from England. He is en route to his home in Toronto and will visit his son, Lieut. Charles Chown, at Valcartier. Colonel Chown has been on special duty at the front and comes back enthusiastic as to the Canadian boys. He has visited all except one of the Canadian camps in England and even camped in England and Scotland. Colonel Chown also went to all parts of the front—Vimy Ridge, the Somme and Ypres. He will now remain in Canada. He brought with him two little wards of an officer killed at the front.
